

play mates

look after each other

Sex is about fun, thrills and pleasure.

Whether we've just met, or fuck all the time, we protect each other by

- keeping up to date with information by calling the Sexual Health Hotline on 1800 451 624
- having regular pap smears and sexual health check-ups
- using condoms and lube when using toys or if we have sex with men, and
- changing condoms when swapping toys between partners or when swapping between your vagina and arse...
